Children are precious. They are our future. As a parent we always strive to give the best to our children.

True Education

According to H. Edward Rowe, True Education is defined as the process by which a student experiences the development of the following seven qualities:

1. Spiritual and Moral Maturity
2. Knowledge of Truths and Facts
3. Ability to Think Rationally
4. Practical Capabilities and Skills
5. Productivity in Accomplishment of Goals
6. Commitment to Traditional Values
7. Adjustment to the Challenges of life

By omitting the Spiritual and Moral dimension, the architects of modern education are ignoring the necessary foundation of True Education. Christ explicitly warned that a house which is built upon sand will not endure. This warning applies to the instruction of our children in this modern world.

True Education is God-centered. Education should assist the child in developing a Biblical Spiritual life and Moral character. Education must help a child develop factual knowledge, reasoning power, and practical skills. It should foster productivity, continuing growth in commitment to traditional values, and a successful, happy adjustment to life.

Excerpts from the book "True Education" by H. Edward Rowe

Metamorphoo fulfils 4

conditions that
fosters
True Education

Responsibility

As a parent you must take responsibility for the education of your child. Home is the primary institution established by God. If you are unable to do it then you must delegate, it to responsible people who share your spiritual commitment and will fulfil your parental requirements. At Metamorphoo Center for Learning we take the responsibility to share your spiritual commitment and fulfil your parental requirements.

Philosophy

The philosophy of education will determine the kind of education your child will receive. Vain and deceptive philosophy based on human tradition and worldly principles will spoil those who are influenced by it. God is the source of all truth. A philosophy that keeps God at the centre and is founded on His revealed truth is essential to True Education. In other words, True Education cannot occur in an atmosphere that ignores or forbids the recognition of God. The philosophy at Metamorphoo is God-centered and is founded on the revealed Word of God which is the Bible.

Individualization

Metamorphoo has adopted ACE Curriculum which is designed to meet your child's needs as a unique individual. We call it Individualization. As a parent you can be assured that your child is given personal attention.

Motivation & Inspiration

Our system of curriculum will ensure that your child will be adequately motivated and inspired to learn. Motivation and inspiration are the detonators that ignite an explosive chain of learning. They open the soul and turn on the thinking and reasoning process. They prepare the soil in which education can take place.

Our Distinctives

Individualization

Mastery Learning

Character Building

Leadership Training

Diagnostic Testing

Individualization

Whether the student is a high-achiever, a moderate-paced learner, or a slow learner, the ACE educational process proceeds at the exact level determined by the child's ability. Individualization makes it possible for each student to master the subject matter before moving on. Such mastery is the foundation upon which all future learning is built.

Academic Excellence

Individualization helps produce academic excellence. Student demonstrates above-average achievement. One reason is that they take responsibility for their own learning. The ACE curriculum is set apart from all other curricula on the market.

The special combination of academics and methodology, based on physiological development patterns and Biblical principles, provides mastery learning, critical analysis, conceptualization, cognitive reasoning, and life from God's perspective. These differences make ACE the most advanced educational package available anywhere in the world.

Mastery Learning

Each child progresses only when he is academically prepared for the next step. A child's knowledge and skill retention improves.

Leadership Training

Student's and Educators' Conventions are held at many locations to present new ways to organize develop and motivate school staff and students.

Diagnostic Testing

A new student entering an ACE School is given diagnostic tests to determine his/her educational performance level and identify learning gaps. The student is then prescribed academic material that meets his needs and challenges him to achieve to a higher academic performance level.

Character Development

Godly character training is part of the ACE curriculum learning experience and it prepares students to welcome and accept challenges and future opportunities. Character is an exemplary pattern of behaviour found in a person. Morality is the discernment to distinguish right from wrong conduct, and the ability to do what is right. Character and morality are rooted in spirituality - the manner of living that results from a proper relationship with God. An educational system that merely conveys facts without spiritual training runs the risk of producing vandals, who become a threat to people, property and society. Civilization is founded on the spiritual dimension of life and actual practice of moral principles and character traits. The ACE Curriculum introduces your child to 90 great Biblical character traits, each of which is expressed in a single word. Examples of such traits are courage, consistency, determination, dependability, resourcefulness, compassion, perseverance, diligence, tolerance, and other 81-character traits, will become life-shaping influences for as long as the student lives. This character training will help to make the student a victorious and desirable person throughout life.

Responsibility

Responsibility is an important character trait that is emphasized at Metamorphoo Center for Learning through a system under the ACE curriculum. With minimal supervision, the student is made responsible to set his own daily and weekly goals for completing successive portions of the curriculum. The system ensures that your child is working toward the fulfilment of self-specified goals. Such a habit of setting realistic goals and achieving them regularly is learned early in life, as a vital part of the educational experience at Metamorphoo. Responsible goal-setting and achievement will distinguish your child throughout the rest of earthly experience.

Recognition

The curriculum places the child to go for higher studies in over **143 countries** and **1200 Universities** globally.

Who

We

Are

The Founders

The founders of Metamorphoo Center for Learning believe that children are a heritage from the Lord. They are unique and they learn in different ways. They realized that character building, academic excellence, physical and emotional health, personal surrender to Jesus Christ in whom are hidden all the treasures of wisdom and knowledge, are very important for the overall development of the child. They believe that the child should be given value-based education to build and enhance holistic understanding of the world God created. Hence, Metamorphoo Center for Learning was birthed.

Our Vision

To support the parent by imparting true, value-based education and help the child to enhance holistic understanding of the world God created - to walk in wisdom, become life-shaping influencers and contribute to the nation through productive living.

The Mission

Provide an environment for students to discover that learning is fun and exciting, expose and enhance talents through Music, Arts & Sports and equip them with Superior Academics in loyalty to the Christian Faith through the Holy Scriptures.

Our Team

At Metamorphoo we have dedicated members who are biblically founded and have varied education backgrounds and share in one common thing that the child should be given 'True Education'. A team who love children and believe that they are the future.

Philosophy

We believe that God is the source of all truth, and in Christ all the treasures of wisdom and knowledge are hidden.

Essentials Courses for Effective Learning

Mum & Toddler
Tiny Tots

Kindergarten with ACE & Christi
ABCs with ACE & Christi

Lower & Upper Learning Center

Mum & Toddler

This is a program intended for the age group 12 months to 18 months. It is a play way method of learning which includes child-centered activities. The mother and the toddler participate in all the activities for an hour. It is a program designed to help the mother and toddler bond and help the toddler to ease into a new environment and experiences.

Tiny Tots

When students from Mom & Toddler program are ready to advance and attend school alone, we offer the toddler program which is for 1.5 hours in a day. The toddlers participate without their mothers. This is program designed for the age group 18 months to 24 months. This program prepares children for the pre-school program in fun play way method which prepares children to love their learning experience.

Speaking English with Ace & Christi

This program provides the means for young school children who do not speak English as their first language to become acquainted with English and to be prepared to read English.

Kindergarten with Ace & Christi

This kindergarten program features a complete scope and sequence of concepts and skills needed to prepare K3-K5 children to learn to read.

ABCs with Ace & Christi

This multi-sensory, phonetic learning-to-read program is designed to prepare a child for the individualized instruction of the PACE curriculum.

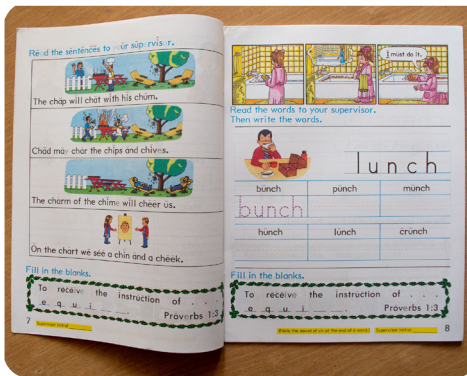

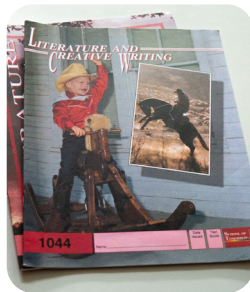

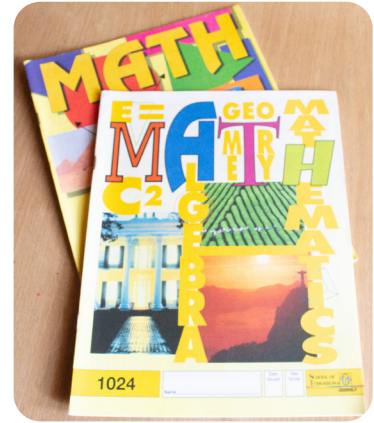

Lower & Upper Learning Center

Each student masters and is tested on an area of material before moving on to the next.

ACE Curriculum

**“The
Most
Advanced
Program
in the World”**

The ACE Curriculum follows the five laws of learning:

1. A student must begin at a level where he/she can perform successfully
2. A student must have reasonable goals
3. A student’s learning must be motivated and controlled
4. A student’s learning must be measurable
5. A student’s learning must be rewarded
